Pendant Styles (70 + options to choose)

CANDLE TOPPER

Material: Stainless steel

Optimal Candle Pairing Solutions

- Diameter 70-80mm
- Diameter 50-60mm

① Dustproof

Protects the wax surface from dust

② Preserves fragrance

When not in use, cover with the lid to preserve the fragrance and prevent aroma dissipation.

③ Candle extinguishing

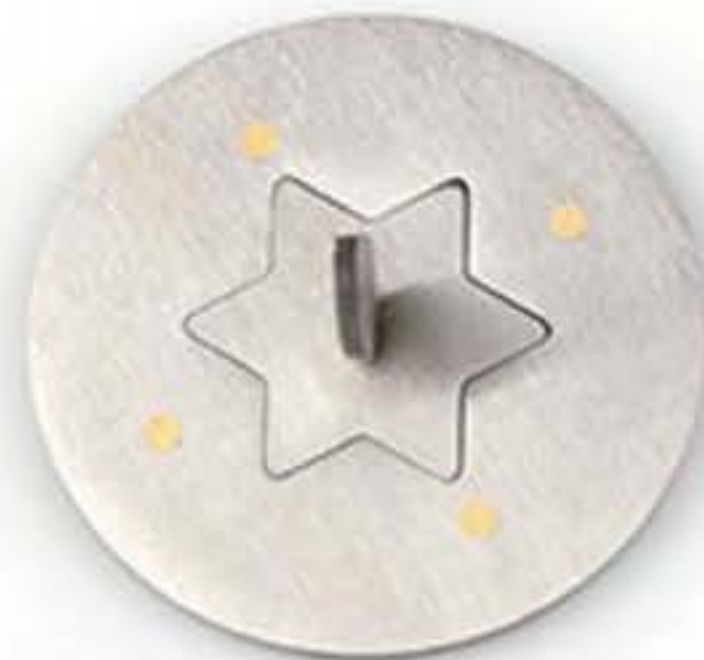

Simply cover with the lid to extinguish the candle flame.

④ Helps it burn better

Toppers reduce the effects of drafts and enhance fragrance distribution by making the candle flame burn steadier.

CANDLE TOPPER

CANDLE TOPPER

Material: Zinc alloy

S: 63mm Suitable for bottle: 53-66mm

M: 80mm Suitable for bottle: 73-81mm

L: 90mm Suitable for bottle: 82-90mm

① Decorat

Add a decorative touch to a jar candle

② Burn better

Helps it burn better. Promotes a stable and even burn for the candle flame

③ Enhance fragrance

Minimize airflow impact and enhance even distribution of fragrance.

CANDLE CARE TOOL SET

① OVAL TRAY

A handsome, minimalist tray to rest your tool set or candle upon.

② SNUFFER

Snuffs out your flame. Simply lay the dome head over the flame for a few seconds. And voila.

③ WICK TRIMMER

This scissor-like device will clip the ashy, excess wick bit, ensuring that your next candle experience will be a clean burn.

④ WICK DIPPER

An alternative to the snuffer, the dipper is a smoke-free method of extinguishing your flame. Use the hook and gently submerge the wick into the molten wax, then pull it back up. Flame free! Bonus — Is your wick off-center? The dipper can also be used to adjust the placement of your wick.
