## USAGE STEPS

1. Prep your nails.

2. Apply the base coat and cure under the UV/LED lamp for 60s-180s.

3. Apply 2-3 layers of color gel and cure under the UV/LED lamp for 60s-180s.

3. Dip a paint stick into the liner gel. Scrape off the paint stick before pulling it out of the bottle.

4. Using the nail painting gel to draw the pattern you like, then cure under UV lamp for 60s-180s.

5. Apply the top coat and cure under the UV/LED lamp about 60s-180s. Finsh.

TIPS: Please remember to thinly apply evey layer of the painting gel.
