

# 2 in 1 EXFOLIATING MITT

Material: Nylon+cotton  
SKU.NO.: 0404550009

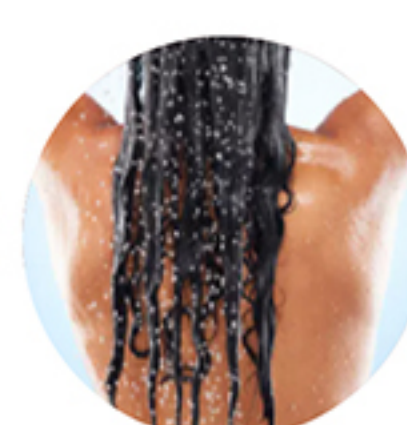

1

Multipurpose glove: softer side for polishing sensitive skin and textured for easy exfoliation.

2

Activate blood circulation and help repair damaged skin. It works for all skin types and helps combat acne, rashes, eczema, etc.

Machine wash

Hanging dry

3

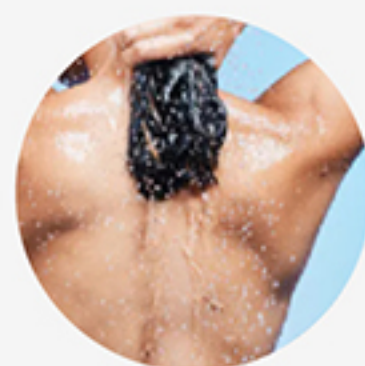

**Resuable:**

Machine wash inside a garment bag then hang after wash.

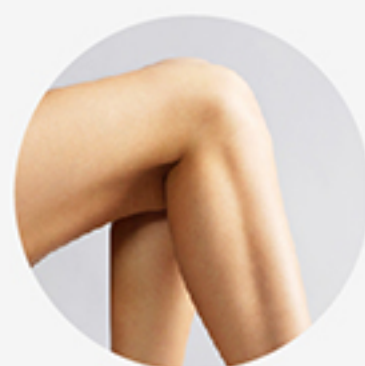

## HOW TO USE

**How:** In the shower, dampen mitt with water or your favorite body wash and exfoliate. The mitt is dual-sided, with a softer side for polishing sensitive skin and a more textured side for buffing rougher spots. Hang the mitt on its loop to dry, and machine wash as needed. For best results, follow up with Ingrown Concentrate or your favorite Fur product on dry skin.

### LOCATION

Back of body

Legs

Armpits

**Where:** Exfoliating with the finger mitt works best on wet skin, so for full body exfoliation, it's easiest to do in the shower. If you'd just like to use it on your face, wetting your face in the sink is fine!

**When:** We recommend exfoliating once daily, or whenever you take a shower. If you've recently removed hair, stick to using the softer side of the mitt for a few days to give your skin time to heal.

The finger mitt can be used as a standalone physical exfoliant, as a way to prep your skin for product application, or paired with your favorite face wash to help lather and penetrate pores for a thorough cleanse.
